LURES

Spin Glider Floating

The Spin Glider is without any doubt the most unconventional lure of the new Sébile range. Get the best of both world mixing a lifelike perch silhouette with a classic spinner motion. Add 360° rotative treble hooks and you get an ultimate pike lure. Available in floating and sinking versions, which are very different from each other. The floating version will go through the lillipad fields and over shallow water in general, with its blade buzzing in surface, while the sinking version will allow you to cover a lot of water volume, being a true power fishing tool...

Cranking Shad

The Cranking Shad offers a bulky body and a large lip, which makes it very easy to locate prey! It moves a lot of water at any speed, it can be casted and steady retrieved, as well as trolled, but he will do the job with stop and go style. It's a very versatile lure which will be efficient all year long. It's then up to you to adapt the speed to follow the pike's mood...

Swingtail Minnow

Action! It's what it's all about. With a bulky round body section, the Swingtail moves a lot of water, and makes a lot of noise. From the lowest speed to the highest, this new wobbler will be a versatile pike seeker.

Flat Belly Walker

The Flat Belly Walker is just what the name implies, a walker style bait designed with a flat belly. Available in 2 sizes and 5 colors. The Flat Belly Walker was built on the principle of a surfboard. This hydrodynamic design is ideal on calm days but fantastic when water's rougher and a stable body is needed to work efficiently. Two techniques, walk the dog and a steady retrieve fit most fishing situations. Walking the dog is the most common technique whereas a steady retrieve allows the angler to fish schooling, active fish quickly.

- Flat bottom is unlike any other walking bait and offers clean crisp side to side movements
- Internal beads increase castability and offers a loud knocking sound for more reaction strikes
- Low, external weight allows for a lower center of gravity, higher buoyancy potential, and better tracking stability
- Equipped with round bend black nickel hooks

Pivot Frog

Sebile's Pivot Frog, available in a 2 1/2" size, adds some much needed innovation to the hollow frog category. Using the Gravity Hook System, a pivoting single wide-gap hook, allows the hook to freely rotate position. This allows for fewer snags and increases hook-up and landing ratios. Two hook systems are difficult to hook bass on but the Pivot Frog focuses all of the force applied by the angler on one hook point! Fish it in open water and in the slop, working the bait between pads while pausing intermittently.

- Sebile's Gravity Hook System employs a pivoting hook that optimizes snag free frog fishing and increases hook-up ratios
- Soft body designed to collapse for maximum hook penetration
- Equipped with a round bend, wide-gap weighted black nickel hook
- Hook position keeps the Frog making it more controllable during retrieve
- Versatile design can be used in slop and also in open water

Star Shiner Shallow

The Sebile Star Shiner is a tight action, suspending jerkbait offered in 2 sizes and diving depths. This lure is ideal for finesse situations when predators are less aggressive.

- Low, external weight allows for a lower center of gravity, higher buoyancy potential, and better tracking stability
- Shapes designed to be shallow/medium suspending jerkbaits
- 1 internal free knocking bead
- Leadfree

Slim Puncher Floating

An elongated version of the popular Puncher minnow, the Slim Puncher offers a great swimming action - thanks to its fixed weights to sustain all type of fishing conditions, from still to turbulent waters.

- Round end, thick bill perfect to rely on a lip than won't break when hitting structure
- Specifically designed Japanese style hooks to fit perfectly the lure's shape and balance
- Leadfree

Spincher

The Spincher was born of the union of two of the most effective lures ever created: a billed minnow and a spinning blade. When many brands will put an in-line spinner first and a minnow shape behind, SEBILE came again with a strong innovation by making that baitfish tandem working in the most efficient manner. The billed minnow in front give the entire lure stability, thanks to its lip as well as its low center of gravity weight. This way, the entire lure is very stable, no matter if used in fast moving water or in lake, from slow to fast retrieves, and can even be twitched to enhance fish bites when needed.

- Perfect lure for trout
- Only sinking models available

Puncher Floating

We have made the Puncher series to bring innovation to the trout lure market. The complete range is equipped with an exclusive system of tungsten weight that offers 2 key benefits to a trout lure: a very low center of gravity and a rotative belly hook. We all know that trouts are skilled when it comes to getting rid of the hook by turning on themselves, using the leverage offered by a fixed hook. This is no longer true as the belly hook is freely turning. This silent series is offered in both slow floating and sinking versions for more versatility. As usual on Sébile lures, the best components are used, from the hard paint to the split rings or the barbless hooks. Available in 4 sizes, and 8 colours.

Magic Swimmer Floating 95 / 110mm

As it swims through structure it creates all its own underwater signals to attract predators, and therein lays its benefit to you. Even fast-hunting predators are used to finding dying prey; they are a delicacy to them as well as an easy meal. And, so is your Magic Swimmer glides with built in swimming action. But don't limit yourself to what you can do with it either, because you can use it with many different speed retrieves and various angler-imparted rod actions. There's no right or wrong way to use one, yet always remember that you can count on the Magic Swimmer Snagless.

- Lifelike swimming action
- New colours

FireTiger Gold

Natural Perch

Natural Shiner

Green Back Ghost

Ayu Green

Natural Blue Back Herring

Pike

Orange Fleeing Prey

Natural Golden Shiner

Pearl

Magic Swimmer Sinking

Swim the lure slow or fast, at your discretion, as allowed by the Magic Swimmer's perfect balance. Its natural swimming action even during steady retrieves is just too much for most gamefish to resist and is equally effective when cast or trolled by any means.

Magic Swimmer Fast Sinking

The FSK will swim magically while sinking without reeling. This gives you something totally new and unique, as you can use the Magic Swimmer FSK with a regular, steady reeling and it'll swim amazingly lifelike but you can also stop reeling to let it wriggle and undulate beautifully on the fall!

Flatt Shad Extra Heavy

Of course you may fish the Flatt Shad Extra Heavy practically any way that you d use a standard sinking Flatt Shad, so it will work the same way but deeper. When it is necessary to cast an extra long distance or it is difficult to cast against the wind, those are conditions that call for the Flatt Shad Extra Heavy too.

Onduspoon

A fluid, natural appearance, its mesmerizing undulation and multi-chambered hard plastic body filled with noisy rattle beads distinguish the SEBILE Onduspoon

from all the rest. The Onduspoon is a hard plastic, noisy chattering spoon cleverly designed not to twist your line even when you burn it back or troll it. That's right, the Onduspoon's exceptional internal balance makes it immune to line twist.
